Ei208 Battery CO Alarm

- Battery powered by a sealed in lithium cell
- Built in AudioLINK data extraction technology
- 10 year life
- Easy to fit twist on base and multi-fixings
- Proven electrochemical sensor

BS EN 50291-1:2010
BS EN 50291-2:2010

Ei208 Battery Carbon Monoxide Alarm

The Ei208 Carbon Monoxide Alarm is a standalone battery unit, powered by 10 year life sealed in Lithium cell.

This means you won't need to replace the battery at any point in the life of the alarm and also that the battery can not be removed ensuring continued protection.

As with all Aico Carbon Monoxide alarms – the Ei208 has AudioLINK Data Extraction Technology built in. Simply download the free AudioLINK App to your compatible tablet or smartphone to be extract a simple and easy to read 'Alarm Status' report from the alarm. This report contains data such as alarm activations, carbon monoxide levels reached, background levels of Carbon Monoxide and battery life.
